

PERKINS PUT IN

CHARGED WITH THE EMBEZZLEMENT OF LIVE STOCK.

Henry Cherry Swore Out a Warrant in Which He Charges Perkins With Taking Cattle to Pasture and Appropriating Them for His Own Use—Says That Perkins Represented He Had a Farm and Pasture on an Island in the Arkansas River—Perkins is in Jail Till He Tells More.

Harry Perkins was arrested yesterday morning for a very unusual offense and slapped into jail. A warrant was sworn out against him by Henry Cherry, who charges Mr. Perkins with embezzlement—out of the bank cashier kind, but an unlawful appropriation of live stock. It seems from Mr. Cherry's petition that Perkins represented to him that Perkins had a pasture on an island some six or seven miles below this city in the Arkansas river. He solicited stock for pasture. Cherry took two head of horses and left them with Perkins for some time to pasture. When he called for them he alleges that Perkins had disposed of the stock and refused to tell where they are.

Cherry also alleges that Perkins had taken in several other head of horses and cattle from other people and that these had also disappeared.

He says that Perkins represented that he had a farm on the island with some seventy acres of sorghum, grass and stalks; that he had a farm of his own there and was arranging an extensive pasture. Perkins lives here in town, below the wash and door factory on Rock Island avenue.

Tom Voss went down to the island Monday afternoon and was told that Perkins was at home in this city. Yesterday morning he went down to the house on Rock Island avenue and was told that Perkins was at the farm. Mr. Voss overtook him on the road and brought him back here. He will attempt to arrange a bond.

An Army Experiment.

Strength of Troops on Long Runs on Bicycles.

The army corps carrying dispatches from Chicago to army headquarters, Washington, on bicycles, to demonstrate the practicability of the rapid movement of troops over long distances on wheels, trained for their run on Postum Cereal in place of ordinary coffee, and Postum was used on the entire trip.

Naturally, a careful investigation into the qualities of Postum preceded its adoption by the officer in Chicago. It is quite generally known to athletes themselves, that Postum Cereal Food Coffee adds in a marked degree to the power of any man for continuous physical exertion, the heart, lungs and nerves working vastly better than where ordinary coffee has been used. The reason for this is, that Postum is made of certain parts of cereals, skillfully selected and scientifically prepared. Certain ingredients of food are needed by the human body to supply the peculiar grey substance that should fill every nerve cell in the body. This cannot be obtained from drugs, but must come from food. Postum Cereal Food Coffee is made from these elements. It looks like coffee and tastes much like it, but is a distinct beverage, rich in food value and standing on its own merit. Many people have had Postum poorly made. It is rich and delicious when boiled 15 minutes and served hot, with enough in the boiler to make it a very deep seal brown color.

Women at Work

nice clothes you are wearing out of your earnings, because that would be impossible." But even a poor button-hole maker must wear something. She dare not imitate her first mother, and "necessity has no law." The consequence is that she is compelled to sell her body in order to clothe it, because all she earns by hard work will scarcely provide the most meagre food and lodging. And thus the iniquitous state of things not only impoverishes the woman workers and their offspring, but degrades and ruins body and soul together.

"HEAP WATER EV' TWENTY YEARS"

Little River May Verify Old Wolf Skin's Prophecy.

On June 19, 1877, Wichita had a tide bath. The Arkansas river spread out all over the town and the water was deep enough on the floor of the Occidental hotel to have furnished parlor bathing. Down where the Manhattan now stands the water was belly deep to a horse. Wolf Skin, an Indian chief who wandered around over this country at that time was here at the time of the flood. "Wash. Heap much wat, big wat ev' twenty years," he said.

The Little River, which began rising Sunday, took another spurt yesterday, and last night at 10 o'clock the water was catching high willows on both banks.

The snow is melting later this year than usual in the mountains and if the ghost of old Wolf Skin's prophecy is going by this year the omens are not amiss.

POSTOFFICE CONSOLIDATION

Approves Itself to the Postal Authorities as a Good Thing.

Washington, June 29.—The work of consolidating small outlying postoffices with a large adjacent one, making a single postal district with modern facilities, will be pushed vigorously by this administration. The opposition to the scheme comes, it said, from residents who have wrong ideas of the objects of the department, or from postoffice employees whose positions are thereby affected. The results of the consolidation policy so far carried out have been most gratifying to the Washington authorities and First Assistant Postmaster General Heath has determined that consolidation shall be effected wherever possible and feasible. Consolidation abolishes the individual small postoffice and substitutes sub-stations for them; reduces the postmasters to sub-agents, with accompanying saving of salaries and complicated auditing work, and, instead of the many postoffices, substitutes the large offices with branches all having free delivery and other advantages according to a postoffice from such privileges. Several consolidations have been ordered recently and others are contemplated.

At Los Angeles, Cal., four or five offices near by have been consolidated with good effect and similar action has been taken at Denver recently.

Two Wisconsin Indians Get Blind-Drunk in Good Earnest.

Washington, June 29.—The Indian agent at the La Pointe agency in Wisconsin has reported two singular cases of blindness on the Vermilion Lake reservation. The victims were John Sky and Red Otter. They got intoxicated by drinking essence of peppermint as a substitute for whisky, one taking almost two ounces clear and in each case blindness followed within a few hours.

Authority has been asked to take the Indians to St. Paul for treatment.

NOT A GOOD PLACE FOR "HEAVENS"

Meulah Schweinfurth Shows His Ignorance of Arkansas Lawyers' Ways.

St. Louis, June 29.—A special to the Republic from Monett, Mo., says: "Schweinfurth, the so-called 'Messiah' of Rockford, Ill., has just returned from Benton county, Arkansas, where, it is reported, he contracted for the purchase of 2,000 acres of unimproved land of Senator Blackburn with the view of removing his proteges from Illinois and establishing one of his 'heavens' there. People in that section are wrought up over the matter."

DARK WAYS AND VAIN TRICKS

Heathen Chinese at Nashville Lives Up to His Reputation.

Washington, June 29.—Information has reached the treasury department that large numbers of Chinese admitted into this country as participants in the Tennessee exposition were clandestinely leaving Nashville for San Francisco, Sacramento, St. Louis, New York and other cities, thus evading the spirit and letter of the law authorizing their admission.

A court has been made recently of the number now employed at the exposition and it has been found that 117 are missing. Acting upon this information, Assistant Secretary Howell has instructed the surveyor of customs at Nashville to lay the matter before the United States attorney at that point with a view to the prompt arrest and deportation of those who already have left or those who attempt to leave before the close of the exposition. It is also stated that the Chinese commissioner is not carrying out in good faith the contract between him and the exposition authorities. In making his protest to the concessionaire the director general is said to have complained that there were too many Chinese in the building set apart for them and that he gave instructions that the surplus must be removed from the grounds. Whether this is any connection between these instructions and the departure of the 117 Chinamen is not known at the department.

DYNAMITE IS USED

AS ARGUMENT IN AN ECOLOGICAL CONTROVERSY.

Leon Olchowski's Premises Wrecked in South Scranton, Pa., in an Attempt, as He Alleges, to Get Even With Him for His Part in a Polish Church Row.—Noted Crook Gets Ten Years in London—The Embuzzlement Cases Against Fugit—Belle Fourche, Mead, Bank Robbers Caught—Crime News.

Scranton, Pa., June 29.—A dynamite explosion early this morning in South Scranton blew up the business block of Leon Olchowski, a double dwelling block owned by him and a detached house owned by Michael O'Hara. The business block, a two-story building, was torn to pieces. Twenty other houses had all the windows blown out and plaster torn from the walls. The shock was felt all over the city. The cause of the explosion is unknown, but Olchowski alleges that it was the work of enemies he had made during political and church disputes in that section, he being one of the principals in the troubles which led to the split in the Polish Catholic congregation. Olchowski was seriously wounded in saving his wife, and his recovery is in doubt. The wrecked buildings took fire, but the firemen prevented it from spreading. In some of the houses the sleeping people were covered with falling plaster. The infant child of Michael Joyce was dangerously wounded, and a little son of John Klein almost suffocated. The total loss will reach \$25,000.

TEN YEARS FOR SWINDLING.

London, June 29.—Charles Bertrand, known under the alias of "Colonel Hay," an alleged brother of the United States ambassador, and who has traveled under the other aliases of "Colonel Travers" and "R. S. Marcell of Chicago," was committed to trial on June 19, charged with fraud in gaining the acquaintance of women and ordering jewelry, dresses, hats, etc., for them, having the goods sent to hotels and then borrowing small sums of money from his victims. He was sentenced in Old Bailey today to ten years' penal servitude. Bertrand had previously served three years' penal servitude here, and under the aliases of "St. Elmar" and "Donaldson" the authorities proved that he had served a term of ten years' imprisonment in San Francisco.

CASES AGAINST FIGEL.

San Francisco, June 29.—Theodore A. Figel, the defaulting bookkeeper for Hoff man, Rothschild & Co., looking pale and nervous, was arraigned before Judge Campbell today on four charges of embezzlement. The court room was crowded. By consent, his examination was set for July 6 next. Figel being released meanwhile upon \$12,000 bail, with his parents as sureties.

BANK ROBBERS CAUGHT.

Omaha, Neb., June 29.—A special to the Bee from Des Moines, S. The wires are down and particulars are unobtainable.

ELECTROCUTED AT AUBURN.

Auburn, N. Y., June 29.—Robert J. Powley was electrocuted at 11:25 o'clock this morning. The execution was successful. The crime for which Powley was executed was the murder of his wife committed on the night of March 8, at Niagara Falls, N. Y. Powley at the time of the murder was under indictment for criminal assault in the second degree and had been released on his own recognizance. Some time previous he had been tried for attempting to chloroform his wife, the jury disagreeing on the first trial and acquitting him on the second.

Powley attempted to prove that he was mentally irresponsible at the time of the shooting. Witnesses testified that he had been injured in the head fifteen years ago and that he had suffered from sunstroke on two different occasions.

NAVAL MILITIA DRILL

Program for the Summer Exercises of that Arm of the Service.

Washington, June 29.—Acting Secretary Roosevelt has practically completed the program for the summer drills of the naval militia, so far as the navy department is connected with the movements. The Montgomery will take care of the militia of Louisiana, and all of the naval militia of the states bordering on the lakes will be taken care of by the Michigan. Mr. Roosevelt himself will attend some of the drills, leaving here next Friday for Cleveland. The dates for the drills were fixed today as follows: The Michigan militia will be drilled at Bay City and Detroit from July 10 to 15. Ohio militia will take its turn at Cleveland and Toledo from July 21 to 27 and the Illinois militia will be met at Chicago, August 9 to 15. On the Pacific coast the monitor Comanche will take care of the militia at San Francisco, the Bennington will take on the southern California militia at San Diego and the Monadnock will serve for the accommodation of the Eureka contingent.

OFFICIALS ALL DENY IT

But It is Stated That There Will Be a Big Coal Strike Next Year.

Pittsburgh, Pa., June 29.—Notwithstanding the denial of the local officials of the miners' association an afternoon paper publishes a long article, in effect, that the national officers of the union will issue orders tomorrow for a strike in four states. The editor, the paper says, will go forth from Columbus that the men are to lay down their tools on Saturday next. Nearly 125,000 men, it is said, will be engaged in this great conflict and the battlefield will cover the bituminous coal centers of Indiana, Illinois, West Virginia and western Pennsylvania. The mining rate asked for is 50 cents, based on the thin-vein district in Pennsylvania.

Columbus, Ohio, June 29.—Michael Ransford, president of the United Mine Workers of America, when asked what, if any, truth was in the specials sent out to the effect that a strike of coal mine workers had ordered, said:

"I am tired of denying these reports of a proposed strike. I have been denying them for sixty days. I have nothing to say for publication."

The miners decided on a scale of 60 cents for Ohio and 65 cents for Pennsylvania and left it to the executive committee to determine the time to put this scale into operation. The committee met here last week and on Saturday gave out that conditions were not favorable to put the proposed new scale into operation.

Cancer

Mrs. A. H. Crausby, of 158 Kerr St., Memphis, Tenn., paid no attention to a small lump in her breast, but it soon developed into a cancer of the most malignant type. The best physicians in New York treated her, and finally declared her case hopeless. As a last resort, S. S. S. was given, and an immediate improvement resulted. A few bottles cured her completely, and no sign of the disease has returned for ten years.
